

Honorable Albert Gore, US Vice President,

June 18, 2024

Honorable Joe Biden, US President,

Honorable Judge Joan E. Donoghue, President Int'l Court of Justice,

Honorable Ajay Banga, World Bank President,

Honorable Antonio Guterres, UN Secretary General,

Honorable Droupadi Murmu, President of India,

Honorable Mariam Nawaz Sharif, Chief Minister Punjab,

I am Paruṣṇi, I am life and I must flow

Varuna gives water in three forms; from the sky- rain, on the ground-river, lake, etc, and under the ground - aquifer. These form the Rta and Satya of Varuna for the plains of Punjab.

I flow on the ground and I am Parusni.

Varuna ordained me to flow from the Himachal to the plains of Punjab to make Prayag with Askini. He empowered me to transcend time and geography. The Rig Veda (10-75-5) is the testament.

Ujh, Baein, Devika, etc, bolster me along the path.

It is at the Prayag of Parusni and Baein that Guru Nanak spent the last years of his life and Sikh religion was born.

The barrages at Madhopur and Balloki maimed me. The Bars of central Punjab vanished (deforestation). The fauna and flora were endangered, but I was still flowing.

The dam at Thein and now the barrage at Shahpur-Kandi is an existential assault on me. Is this human change?

If I do not flow the aquifers would be soon emptied. There would be less rain. The great plains of central Punjab already devoid of its forests would desertify and so would the cities. The Treaty (4-7) states that I will not be diverted from Madhopur.

The scorching summer heat of Jeth Harh makes the fauna and flora wonder that why Parusni is not flowing? What happened at the Himalaya? Are they praying to Varuna?

I am life not only to humans but also to fauna and flora. Varuna knows all and He has destined my path and flow to make a Prayag with Askini. Let me flow!

Parusni

Himachal – Sarai Sadhu
